802.1x WiFi Configuration for Android:

1. Enter "Settings" application

2. Inside the settings application, select "Wi-Fi"

3. Select "PointPark802.1X"

4. Enter your Point Park username into the "Identity" field and password into the "Password" field

5. If you have successfully entered your username and password, your screen should now show a closed lock next to "PointPark802.1X"
