802.1x WiFi Configuration for iOS:

1. Click on the "Settings" icon

2. Click "Wi-Fi"

3. Select "PointPark802.1X" from the network list.
4. Enter your Point Park username and password into their boxes and click "Join".

5. Click "Accept"

You should now see "PointPark802.1X" with a check mark next to its name on your screen. If you see this, you have correctly connected to the Point Park wifi.
