Program Objectives

Master of Science in Criminal Justice Administration

Upon successful completion of this program, a student will be able to:

1. Describe how criminal justice policy is formulated at the federal, state and local level within a political, economic, and social context.
2. Articulate the roles and functions of the various components of the criminal justice system.
3. Integrate theory and practice in relation to public and private agency planning, accounting, budgeting and finance.
4. Describe the cultural context in which the criminal justice system operates.
5. Specify how multi-culturalism relates to the community, the workplace, and the effectiveness of the criminal justice professional and job performance.
6. Compare criminological theories.
7. Identify and apply the basic principles of public and private agency management and administration, including resource management and allocation.
8. Demonstrate leadership skills through effective communication skills.
9. Demonstrate computer skills related to data collection, analysis, and interpretation within the field of criminal justice administration.
10. Demonstrate the skills necessary to be effective and successful in fulfilling various professional positions throughout the justice system.
