Program Objectives

M.A. In Educational Administration

Upon successful completion of this program, a student will:

1. Acquire a thorough understanding of educational theories while emphasizing collaborative, hands-on learning, which utilizes appropriate technologies.
2. Develop curricula for content areas that incorporate diverse learner populations and settings from across the lifespan.
3. Work effectively with diverse teacher and student populations in a variety of educational settings.
4. Develop effective supervisory and educational leadership skills for organizational management, school administrative resources, and community interaction.
5. Effectively manage institutional resources in educational settings for a day-to-day administration in K-12 schools.
