Program Objectives

MASTER OF SCIENCE IN ENVIRONMENTAL STUDIES

Upon successful completion of this program, a student will be able to:

1. Apply the principles of biological, physical, and social sciences to an understanding of environmental concerns.
2. Identify and examine historic perspectives relating to environmental problems.
3. Design, implement and evaluate environmental programs in government agencies, corporations, consulting firms, and non-profits.
4. Analyze social and environmental issues and communicate analysis responsibly to diverse constituencies.
