

Do you want to teach online?

Is your school implementing online and blended learning initiatives?

Do you want to incorporate more technology into your courses?

GET THE SKILLS you need
AT POINT PARK UNIVERSITY.

2012 Teachers' Technology Boot Camp

Ideal for trainers and teachers in K-12 and higher education – plus, earn three graduate credits per course!

Online and Virtual Teaching and Learning

May 16-June 20 (Wednesdays 6-9 p.m. and online modules)

Learn basic skills about the design and delivery of online and blended courses:

- Hands-on introduction to designing an online or hybrid class (student's choice of content area)
- Best practices and quality standards
- Engaging students
- Models of course design and delivery
- Instructional strategies
- New instructional technologies and applications
- Social media for teaching and learning
- Historical roots of distance, online and blended education

Instructor:

Vincenne Revilla Beltran, Ph.D., Professor of Education

Cost: \$2,295 for three-credit course or \$1,207.50 to audit

Technological Applications Across the Curriculum

June 30-Aug. 4 (Saturdays 8 a.m.-3 p.m.)

Learn educational technology skills that can be applied immediately to courses:

- Reaching the 21st century learner
- Webcasts and videoconferencing
- Student response systems (clickers)
- Copyright and plagiarism
- Collaborative and project-based learning
- Social networks, mobile and game-based learning
- Teaching and learning in virtual worlds
- Professional development in the 21st century

Instructor:

Karen Hall, Director of E-Learning

Cost: \$2,295 for three-credit course or \$1,207.50 to audit
