Schneider Downs
Fall 2010 Paid Internship - Staff Auditor

Schneider Downs, Pittsburgh’s largest regional accounting firm (and 3rd largest accounting firm in Pittsburgh), is large enough to provide you with tremendous professional developmental opportunities, yet small enough to ensure that you get personal attention.

As a member of our Fall 2010 internship program, you will work hands-on as a member of internal audit engagement teams and will be responsible for various assigned projects that assist with the completion of the engagement. To enhance your own development, you are formally exposed to both operational and accounting issues that are of a concern to our clients. This learning environment may provide experience with a variety of clients and industries such as higher education, retail, financial services, natural resources, manufacturing and professional corporations. You will also participate in numerous functions through the program, including firm-events, which provide opportunities to learn and interact with our employees.

Interns must be a junior or senior accounting major with a minimum QPA of 3.3. Interns should possess a balance of academic excellence, interpersonal skills and leadership ability.

This paid internship will run during the fall semester from September 7th – December 17th (dates subject to change). Interns are required to complete a minimum of 200 hours and internship must be for 3 academic credits.

To apply, send your resume and cover letter to studentsuccesscenter@pointpark.edu by Friday, March 19, 2010. Selected candidates will be interviewed on campus in early April.
