The Point Park University Library seeks your participation in a LibQualTM survey that will run from **March 21st through April 18th**. LibQualTM is an internationally accepted web-based survey offered to the library community by the Association of Research Libraries (ARL). This survey is designed particularly for Point Park University to document student, faculty, and staff perceptions about the library, its resources, space, and services.

Information about how to complete the survey will be sent to your Point Park e-mail account. Responding to the survey questions will take about fifteen minutes of your time. Your responses to the survey will be held in confidence and will not be traceable to your name or e-mail account. Once the survey is completed, you can choose to enter a raffle for an iPod Shuffle and other prizes.

Please take the time to tell us what you think of the library. In the end, this survey benefits you. Fifteen minutes of your time will help us improve the library resources and services that we offer to the Point Park Community. Fifteen minutes of your time may also mean winning your very own iPod Shuffle or other neat prizes.

Popular Reading Collection Coming Soon

The Point Park University Library will soon be subscribing to McNaughton Book Service, which will supply high-demand, popular titles to the Point Park Community.

Book selections will include current best-sellers from non-fiction, self-help, mystery, romance, science fiction, and other genres. New books

will be added monthly, and much-loved titles will find a permanent place at the Library.

Although our popular titles won't be here in time for winter hibernation, you will have plenty of books available for upcoming rainy days and summer reading breaks in the sun.
