Program Objectives

M.A. Clinical-Community Counseling Psychology

Upon successful completion of the program, students will be able to:

1. Describe the psychological foundations of clinical-community psychology.
2. Apply clinical-community psychology for the prevention and amelioration of mental illness and the improvement of mental well-being.
3. Employ research skills to explore questions and help solve problems in clinical-community psychology.
4. Demonstrate understanding of ethics and values in the field of clinical-community psychology.
5. Demonstrate appreciation of and assessment of individual and cultural diversity.
