# Program Objectives

## M.S. IN ENVIRONMENTAL STUDIES

**Upon successful completion of this program, a student will be able to:**

1. Apply the principles of biological, physical and social sciences to an understanding of environmental concerns.
2. Identify and examine historic perspective relating to environmental problems.
3. Design, implement and evaluate environmental programs in government agencies, corporations, consulting firms and non-profit organizations.
4. Analyze social and environmental issues and communicate analysis responsibly to diverse constituencies.
