PROGRAM OBJECTIVES

Upon successful completion of this program, a student will be able to:

1. Research, write, and edit materials for a variety of audiences exploring topics in visual art and photography, and compose artist statements for exhibition.
2. Describe and demonstrate knowledge of the history, aesthetic standards, professional, and artistic characteristics of art and photography.
3. Construct moral philosophies around the medium by applying knowledge of best practices in the industry, utilizing ethical and legal principles, within professional and nonconventional standards.
4. Demonstrate an applied understanding of the visual language of photography and the ability to incorporate technical, formal, and conceptual competencies in their creative work with interpretation of other artistic media.
5. Professionally assess and critique (describe, interpret, evaluate and theorize, articulated both verbally and in written form) one's own photographs and those produced by others.
6. Demonstrate the ability to produce lens based work that is consistent with highly professional standards, suitable for publication and/or gallery exhibition.
