TOTAL PROGRAM MINIMUM REQUIREMENTS 60

Program Objectives

M.F.A. in INTERDISCIPLINARY ARTS

Upon successful completion of this program, a student will be able to:

- 1) Demonstrate an authentic artistic voice with the ability to create interdisciplinary works developed from an individualized interconnected understanding.
- 2) Recognize the value of process to transform curiosity as an artistic practice through research, self-reflection, examination, learning, and applying.
- 3) Present clear, articulate, and cohesive descriptions of artistic goals and intentions.
- 4) Contribute and participate, respectfully and productively in a collaborative, productive, artistic community.
- 5) Demonstrate, as a thinking creator with entrepreneurship literacy, the artistic and professional skills to cultivate a concept transformed as a fully realized product.
