Dean's Meritorious Award

Type: College/University

Curriculum: Faculty members individually mentor majors so that they will be successful in the dance program and in preparing for careers. The dance faculty conducts a placement class at the beginning of the fall semester as an assessment of modern and ballet technique proficiency for all new dance majors (whether first-time or transfer students). Faculty use this placement class to recommend enrollment in the appropriate level of technique for each student. All dance majors are required to complete a sophomore review in their fourth semester. In this review the students demonstrate proficiency in modern and ballet technique and present their resumes/portfolios to faculty. Faculty members work with the students to improve their presentation skills, discuss their progress in the program and explore their future goals. In their senior year all majors take DANT 432: Careers and Current Trends in Dance and demonstrate proficiency in modern and ballet technique a final time. In their last semester all majors complete an exit interview as a final step to prepare them for careers. Dance majors also participate in master classes presented by professional dancers from companies such as Alvin Ailey American Dance Theater, Parsons Dance Company, as well as from local/regional companies.
