COURSE DESCRIPTIONS

COURSE NUMBERS

The course-numbering system indicates the college level at which courses are normally taken.

NUMBERING SYSTEM GUIDE

001-009 precollege course-no credit
010-099 credit granted but not applicable to graduation
100-199 primarily for first-year students
200-299 primarily for second-year students
300-499 primarily for upper division students
500-599 graduate courses
600-799 doctorate courses

At the end of each description, course credits are listed. Courses with variable hours and credits are so indicated.

SEMESTER SCHEDULE

Notation to the right of the course name indicates when the course is offered. If a notation is not included, the course is offered as needed.

DEPARTMENTAL OFFERINGS

ACCOUNTING

ACCT 101 Introductory Accounting I 3 credits
The basic principles and procedures for gathering, recording, summarizing and interpreting accounting data.

ACCT 102 Introductory Accounting II 3 credits
General accounting principles, special procedures for manufacturing operations and analysis of financial and fund statements. Prerequisite: ACCT 101.

ACCT 201 Intermediate Accounting I 3 credits
Preparation of financial statements. Additional principles for cash receivables, inventories, investments and income concepts. Prerequisite: ACCT 102. Co-requisite or prerequisites: ACCT 204, CMPS 214.

ACCT 202 Intermediate Accounting II 3 credits
The principles of fixed assets, liabilities and equity accounting; statements of funds and cash flow; problems of business reorganization. Prerequisites: ACCT 201, CMPS 214.

ACCT 203 Managerial/Cost Accounting 3 credits
Use of accounting information for management planning and control and the interpretation of accounting data as a management tool. Prerequisite: ACCT 102.

ACCT 204 Computer Applications in Accounting 3 credits
Use of a computer to process accounting data and a computer-assisted practice set. Analysis of a company’s evolution from a sole proprietorship to a corporation. Creation of journal entries and use of the computer to generate the annual journal, trial balance and financial statements. Prerequisite: ACCT 102.

ACCT 210 Introduction to Financial Accounting 3 credits
Introduction to and application of financial accounting concepts relating to the importance of accounting in business and the application of generally accepted accounting principles related to the collection, recording, analysis, interpretation and reporting of financial accounting information. Prerequisite: MATH 180.
ACCT 220 Managerial Accounting 3 credits
Introduction to and application of managerial accounting concepts related to the use and interpretation of accounting data in decision making. Prerequisite: ACCT 210.

ACCT 230 Accounting Information Systems 3 credits
An introduction to computerized accounting information systems. Financial data processing and reporting, including application of accounting concepts, principles and preparation of reports, using systems commonly used in actual practice. Prerequisite: ACCT 210.

ACCT 300 Advanced Accounting Theory 3 credits
Accounting principles as they relate to partnerships, consignments, installments, branch relations and consolidations. Prerequisites: ACCT 202, ACCT 204, CMPS 214.

ACCT 301 Cost Accounting Principles 3 credits
Principles and procedures for determining unit cost of production, job order cost and standard process cost systems. Prerequisite: ACCT 102.

ACCT 303 Tax Accounting 3 credits
Principles of tax accounting, types of returns, includable and excludable income, expenses, deductions, inventory and depreciation methods. Prerequisites: ACCT 102, CMPS 214 or permission of instructor.

ACCT 305 Auditing 3 credits
Principles and methods of verification of accounts and financial statements. Auditing theory and practical and theoretical applications of auditing standards and procedures. Prerequisite: ACCT 202.

ACCT 307 Nonprofit Accounting 3 credits
This course will address the principles of accounting in nonprofit organizations, including donations, restricted accounts, fund balance and IRS requirements. Prerequisite: ACCT 102 or BUS 303.

ACCT 310 Intermediate Financial Accounting 3 credits
A study of accounting standards, the conceptual framework and financial reporting with a focus on the income statement, the balance sheet, the statement of cash flows, and a detailed examination of accounting concepts related to cash, receivables and inventories. Prerequisite: ACCT 210, CMPS 214.

ACCT 311 Intermediate Financial Accounting II 3 credits
A study of accounting standards, the conceptual framework and financial reporting with a focus on property, plant and equipment, intangible assets, depreciation, amortization, impairments, liabilities, and equity. Prerequisite: ACCT 310, FIN 300

ACCT 312 Intermediate Financial Accounting III 3 credits
A study of accounting standards, the conceptual framework and financial reporting with a focus on revenue recognition, income taxes, leases, pension, and post-retirement benefits. Prerequisite: ACCT 311

ACCT 320 Cost Accounting 3 credits
Principles and procedures for determining unit cost of production, job order cost and standard process cost systems. Prerequisite: ACCT 210, ACCT 220, CMPS 214.

ACCT 350 Federal Taxation 3 credits
Basic principles and procedures of Federal Taxation with an emphasis on individual taxpayers. Prerequisites: ACCT 210, CMPS 214 or permission of instructor.

ACCT 355, ACCT 356 Accounting Internship I, II 3 credits
Part-time job experience approved by the department in a local business or industrial firm. Method of evaluation to be agreed upon by the departmental and job-site supervisors. May include periodic reports, a day-by-day journal and a final report. Prerequisites: Junior standing and permission.

ACCT 381 Accounting Internship I 3 credits
Part-time job experience approved by the department in an accounting firm, a business or industry. Method of evaluation to be agreed upon by the departmental and job-site supervisors. May include periodic reports, a day-by-day
journal and a final report. Prerequisites: Junior standing and permission

**ACCT 382 Accounting Internship II** 3 credits
Part-time job experience approved by the department in an accounting firm, a business or industry. Method of evaluation to be agreed upon by the departmental and job-site supervisors. May include periodic reports, a day-by-day journal and a final report. Prerequisites: Junior standing and permission

**ACCT 410 Advanced Accounting Theory** 3 credits
Accounting principles as they relate to business combinations and the consolidation process. Advanced complex financial accounting topics will be covered. Prerequisites: ACCT 312.

**ACCT 440 Auditing I** 3 credits
An introduction to the fundamentals of financial statement auditing. A student of the principles and practices used by public accountants in examining financial statements and supporting data with an emphasis on the basic auditing concepts such as risk, internal control, evidence, objectivity and important relationships among these concepts. Prerequisites: ACCT 312.

**ACCT 460 Nonprofit Accounting** 3 credits
A study of the principles of accounting in nonprofit organizations, including donations, restricted accounts, fund balance and IRS requirements. Prerequisites: ACCT 210.

**ACCT 194, ACCT 294**
Selected Topics in Accounting 1-6 credits

**ACCT 295, ACCT 395, ACCT 495**
Selected Topics in Accounting I, II, III 1-6 credits

**ACCT 296, ACCT 396, ACCT 496**
Independent Study in Accounting I, II, III 1-6 credits
Special Request Independent Study Fee: $65 per credit. Students produce an integrated marketing communication plan for a client.

**BUSINESS MANAGEMENT**

**BMGT 101 Introduction to Business** 3 credits
A survey of business and management using descriptive and analytical techniques including the study of human relations, delegation of authority and managerial communications.

**BMGT 201 Business Law I** 3 credits
An introduction to the law in general and a survey of the law as it relates to business transactions including the law of contracts, agency and employment, personal property, bailments, real property, wills, descendants’ estates, trusts and international law.

**BMGT 202 Business Law II** 3 credits
A survey of the law as it relates to business transactions including the law of sales, the Uniform Commercial Code, consumer law, commercial papers, partnerships, corporations, antitrust, labor, environmental, secured transactions, bankruptcy, insurance and administrative law. Prerequisite: BMGT 201.

**BMGT 207 Human Resource Management** 3 credits
Overview of HR functions with a focus on: recruitment and selection processes, performance appraisal systems, and compensation & benefit systems, EEOC compliance, employee relations and discipline. Students in the HR program must retain a copy of the completed group project for submission in their portfolio in BMGT 418. Prerequisite: PSYC 150.

**BMGT 208 Principles of Management** 3 credits
Emphasis on the major theories and functions of management. Students develop an understanding of why management is needed in all organizations and what constitutes good management. Prerequisite:

**BMGT 210 Digital Marketing** 3 credits
The internet and related technology skills are required by most business today - particularly in the realm of marketing.
You’ll learn the basic language of the online marketing ecosystem including advertising, search engine optimization/management, analytics, content development/deployment and social media. This is a hybrid course, combining online learning with in-person implementation of learning with real clients during our class time. Dual Listed with SAEM 210. Prerequisites: SAEM 202 or MKTS 205.

BMGT 221 Business Communications and Research 3 credits
The objectives, methods and forms of business communications; business research and the classification and presentation of findings. Prerequisites: ENGL 101.

BMGT 231 Introduction to the Hospitality Industry/Profession 3 credits
This course uses the history of the hospitality industry to introduce students to the scope of businesses and activities, and current and emerging trends.

BMGT 234 Ethical Leadership 3 credits
A philosophical investigation of the main concepts and theories of ethics, with applications to fundamental moral questions as they arise in different areas of business. The following issues may be used as illustrations: affirmative action, investment in unethical companies or countries, product safety, whistle blowing and advertising. Prerequisite: None.

BMGT 241 Sales/Revenue and Marketing Planning in the Hospitality Industry 3 credits
This course covers the various revenue centers or activities with the hospitality industry and how marketing planning is used to determine the appropriate mix. Specialty or niche marketing strategies will be examined, along with other strategies for establishing competitive advantage, by employing Strategic Planning. Prerequisite: BMGT 231.

BMGT 271 The Money Thing: Life and Finances During and After College 3 credits
Life is coming and so are its financial responsibilities. Now is the time to become more financially literate. This course will provide students an engaging and approachable framework for developing greater financial literacy and creating financial plans as students move out of their college experience and into the real-world. Topics such as student loan consolidation, balancing consumer needs and savings, creating financial budgets and plans, maintaining a healthy credit standing, and developing long-term financial horizons will be few of the areas covered through the use of readily available PC and mobile applications. Prerequisites: Sophomore standing or above.

BMGT 280 Business Career Prep 1 credit
This class will prepare students for entry into the professional world by developing foundational skills in interviewing and marketing themselves utilizing resumes, cover letters, social media and e-portfolios.

BMGT 303 International Business 3 credits
An overview of business practices in the international arena which acquaints students with the complexities of international business. Analysis of such topics as global interdependencies, the working of multinational enterprises and other concerns reflecting the variety of socio-economic environments in which transnational institutions function.

BMGT 305 Regulations in the Workplace 3 credits
Covers major employment, labor and discrimination laws and regulations governing the workplace. Develops an understanding of the practical application of workplace regulations on day-to-day human resources operations and ways to minimize a company’s exposure to lawsuits and charges with emphases on case study discussion, practical examples and use of extensive resource materials. Students in the HR program must retain a copy of the completed work for submission in their portfolio in BMGT 418. Prerequisite: Junior standing.

BMGT 315 Financial Reporting and Control 3 credits
Financial Reporting is a course in the non-technical application of the principles of accounting, with emphasis on the use and interpretation of financial reports, managerial planning and control. The course is designed to impart a basic knowledge of the uses and applications of accounting. It is designed for the user of accounting information rather than the preparer. Students in the HR program must retain a copy of the completed work for submission in their portfolio in BMGT 418. Prerequisites: ACCT 101, 102.

BMGT 316 Labor and Management Relations 3 credits
This course reviews the history and evolution of American labor unions, including industrial relations problems. The course will explore the concept of collective bargaining by focusing on the formation of labor unions, the passing of the National Labor Relations Act, and the development of subsequent labor laws. The components of a labor agreement,
including the relative positions of management and the union in negotiations, will be discussed. U.S. employment law will also be covered. Students in the HR program must retain a copy of the completed work for submission in their portfolio in BMGT 418. Prerequisite: BMGT 207.

BMGT 318 Human Resource Management II 3 credits

Human Resource Management II delves into HR processes from a strategic level. Focus will be on Human Resource Management as a Business Partner for the design and implementation of organizational processes to achieve corporate goals and improve efficiencies. Topics under discussion include: workforce planning, labor forecasting, talent management, HR technology, metrics and analytics, onboarding, succession planning and strategic HR. The SHRM competencies, consultation, business acumen, and leadership and navigation, will included in the course content. Students in HR program are required to upload at least one example of their work as identified by the faculty member to their e-portfolio. Prerequisite: BMGT 207.

BMGT 319 Current Topics in Human Resource Management 3 credits

In depth study into current topics that impact how organizations properly address and manage HR processes thereby enabling the organization to obtain desired goals and address sustainability. The SHRM competency of Global and Cultural Effectiveness will be included in the course content. Students in the HR program are required to upload at least one example of their work as identified by the faculty member to their e-portfolio. Prerequisite: Junior Standing.

BMGT 320 HR Data Analysis 3 credits

HR Data Analysis will investigate and evaluate the various systems and tools commonly used by organizations to extract and analyze data, and in strategic organizational decision-making to enhance organizational success and sustainability. Students will examine and develop the skills required to extract and analyze HR data. Students will apply these newly developed skills to analyze the impact on organizational success, strategic decision-making and sustainability. The SHRM competency, Critical Evaluation, will be included in the course content. Students in HR program are required to upload at least one example of their work as identified by the faculty member to their e-portfolio.

BMGT 326 Investment Management 3 credits

An analysis of securities and principles governing the management of investment assets including risk management pertinent to insurance and real estate. Prerequisites: FIN 300; ACCT 210

BMGT 330 Compensation and Benefits 3 credits

Covers compensation theory and the major employment and labor laws and regulations affecting compensation. Topics include, but are not limited to, defined benefit/defined contribution retirement programs and fringe benefit plans. Students in the HR program must retain a copy of the completed work for submission in their portfolio in BMGT 418. Prerequisite: Junior Standing.

BMGT 331 Safety and Security in the Hospitality Industry 3 credits

This course covers all aspects of safety and security in the hospitality industry; including food handling procedures and inspection compliance, guest and facility safety and security, regulatory and legal, IT and data security and privacy, and special concerns specific to the industry. Prerequisite: BMGT 231

BMGT 332 Introduction to Entrepreneurship 3 credits

The course involves an introduction to the discipline of entrepreneurship and a study of the essential steps in starting and operating a smaller business.

BMGT 336 Entrepreneurship Regulation 3 credits

A study of those legal and regulatory issues that entrepreneurs face in starting and operating a new small business. The focus of the course will be on training entrepreneurs to recognize those legal issues in the new enterprise before they become significant legal problems.

BMGT 338 Operations Management & Quantitative Analysis 3 credits

Students will study concepts of operations management. Students will learn to use statistical techniques and quantitative analysis to apply to business type problems. Topics will include: Project management (PERT), use of formulas/mathematical equations/probability to make business decisions, models such as linear programming, forecasting, and basic inventory models.

BMGT 340 Organizational Behavior with Topics in Management 3 credits

Examines the role of individual and group behavior within work organizations. Review the traditional theories of
management. Topics will include motivation, leadership, group behavior, organizational structure, conflict management, and resistance to change.

BMGT 341 Operations Management in the Hospitality Industry 3 credits
This course will identify the resource requirements for the major functions or activities in the hospitality industry—what it takes to run a business including front desk/housekeeping/human resources, and food and beverage management (catering, banquets, restaurants, and room service). This course will explore what is required to operate these departments, and how to prepare budgets and control expenditures to manage profitability, while balancing service levels. Prerequisite: BMGT 231

BMGT 351 Organizational Behavior in the Hospitality Industry 3 credits
This course will cover the behavioral or psychological issues related to the hospitality industry: from the perspective of both guests and employees. Many techniques will be covered, including; conflict resolution, crisis management, human resource activities—hiring/orientation/training/role playing/union and labor relations and many others. It will also cover the corporate culture of a business and how to integrate employees into the culture. Prerequisite: BMGT 231

BMGT 353, BMGT 354 Hotel/Restaurant Internship I, II 3 credits
Practical work experience in the hotel and restaurant environment gained through a coordinated study program between the department and participating businesses. Periodic reports of the progress of the internship are required. Prerequisites: Junior Standing and permission.

BMGT 355, BMGT 356 Business Management Internship I, II 3 credits
Part-time job experience approved by the department in a local business or industrial firm. Method of evaluation to be agreed upon by the departmental and job-site supervisors. May include periodic reports, a day-by-day journal and a final report. Prerequisites: Junior standing and permission.

BMGT 380 Cooperative Education I 6 credits
Cooperative education provides students with hands on experience in industry. Students gain practical experience, enhance skills learned in the classroom, and acquire contacts with professionals in business. This course requires students to complete 480 hours in the field, be evaluated by their supervisor and prepare a report. Students must be approved prior to beginning their co-op and should have a Q.P.A. of 3.0 or higher. This is a Pass/Fail course. Prerequisite: BMGT 280.

BMGT 406 Operations/Production/Quality Management 3 credits
An integrated view of operations/production with regard to strategic planning and relationships with other functional areas. The operations/production process is analyzed with emphasis on the solution of problems using contemporary management tools such as linear programming, the case study method and other selected mathematical/statistical techniques. Prerequisite: BMGT 310

BMGT 410 Case Studies in Business Operations and Management 3 credits
Case studies in technical, business and professional areas that address the application of skills developed in the professional studies program. Emphasis on planning, scheduling and managing resources, as well as leadership skills and ethical issues in the workplace environment.

BMGT 418 Portfolio and Career Planning with Assessment 3 credits
This is one of the final courses for Human Resource Management Majors. This course will be the culmination of all the work students have done in the program. It requires students to collect evidence of learning outcomes throughout their course work program. Students will be required to gather, organize, and reflect on work they have included in their portfolio. Students will present their portfolio using technology and audiovisual equipment to a professional audience. Additionally, students will complete a series workplace practicum modules that will help prepare them for career placement/advancement and build a social network. And they will explore certification options, including the standardized for graduating seniors. Students will meet individually with the instructor to discuss various components of your portfolio. It is in the students best interests to work with others and share the projects that they plan to include in their portfolio. Prerequisites: BMGT 318 Human Resource Management II, BMGT 419, Senior Standing.

BMGT 419 Research Methods in a Business Environment 3 credits
This course explores various qualitative and quantitative research methods, experimental controls, data analysis, and scientific communication used in a business environment. Upon completion of the course, students will know how to formulate research questions, select the appropriate research methodology, collect and analyze data, and communicate findings and recommendations. The SHRM competency, Critical Evaluation, will be included in the course content. Students in the HR program are required to upload at least one example of their work as identified by the faculty member to their e-portfolio. Prerequisite: MATH 175.

**BMGT 420 Seminar in Human Resource Management Capstone** 3 credits

This course is the Capstone Course taken by all Human Resource Management Majors. Students will use the theory and practices of Human Resources they have learned throughout their academic career to design and implement a Human Resource project in a specific business environment. The project will pertain to one of the following HR function or service areas: Safety & Health, Employee and Labor Relations, HR Resources, Staffing, HR Development or Compensation & Benefits. The students will research and write a literature review on the topic. The student will conduct a needs analysis to identify the specific need of the organization. The needs analysis will also provide focus for the student to design a program addressing the need. A formal report on the process and content of the project will be composed and submitted to the instructor. Deliverables including the designed HR program to address the identified need, implementation method and evaluation procedures of the designed program will be developed and presented to the organization or client. Non-Human Resource Management Majors can also take this course with the specific permission of the instructor. The SHRM competency, Communication, will be included in the course content. Students in the HR program are required to upload at least one example of their work as identified by the faculty member to their e-portfolio. Prerequisites: BMGT 318, 419; PSYC 215, and Senior Standing or permission of the professor.

**BMGT 421 Finance and Tax for Managers** 3 credits

This course will cover Financial Planning and Tax Concepts related to benefits. It will also cover Financial Analysis Concepts needed to support Cost/Benefit studies used in Benefit Package Selection, Outsourcing Options, and Other Human Resource Management Decisions. Upon completion of this course, students will be able to explain benefit options to employees, and will be able to apply finance and tax concepts to support decision making.

**BMGT 441 Cross-cultural Business Management** 3 credits

An overview of structure and functions of multinational organizations. Includes the role of the manager in various organizational settings, the influence of the manager and organization upon each other, comparisons of the effect of cultures upon organizations, managerial assumptions about people when designing organizational structure and the impact of socio-cultural environment on the multinational firm. Dual listed as MBA 541. Prerequisites: MKTS 304; ECON/FIN 306, ECON 321.

**BMGT 448 Training and Development** 3 credits

Presents basic formats of learning designs and use of resources. Students demonstrate their ability to set objectives, outline teaching and training strategies, prepare demonstrations for varying group sizes and conduct assessment of learner progress. Explores principles of curriculum development and utilizes these principles in the design of a total educational program for the adult learner. Prerequisite: EDUC 445. Dual listed as EDUC 448.

**BMGT 452 Global Aspects of Entrepreneurship** 3 credits

A review of the issues and challenges facing entrepreneurs around the globe focusing not only on startups in the United States wanting to do business in other countries, but the continued development of entrepreneurship in other countries. Prerequisite BMGT 332.

**BMGT 454 Advanced Entrepreneurial Applications** 3 credits

An extension of the study of entrepreneurship by applying many of the basic principles of entrepreneurship in an advanced setting. This would include a detailed analysis and preparation of a business plan for a new enterprise. The course would also involve case studies showing how various enterprises have met and solved some of the unique challenges facing those types of businesses. Prerequisite BMGT 332.

**BMGT 457, BMGT 458 Fashion Merchandising Internship I, II** 1-6 credits

Practical work experience in a fashion-related industry gained through a coordinated study program between the department and participating corporations. Prerequisite: Senior Standing.

**BMGT 480 Cooperative Education II** 6 credits

The second cooperative education experience will provide students with an enhanced hands-on experience in industry.
Learners gain practical experience, enhance skills gained in the classroom, and acquire contacts with professionals in business. This course requires students to complete 480 hours in the field, be evaluated by their supervisor and prepare a report. Students must be approved prior to beginning their co-op and should have a Q.P.A. of 3.0 or higher. This is a Pass/Fail course. Prerequisites: BMGT 280 and BMGT 380.

**BMGT 481 Business Models of Organization** 3 credits

The capstone class requires students to interpret knowledge gained throughout their coursework in the University core and major program in order to conceptualize a business model (mission/vision/values), analyze a company's business model, and create a business operations plan for a theoretical organization. An e-Portfolio will be utilized for assessment purposes. Prerequisites:

**BMGT 194, BMGT 294**
Selected Topics in Business Management 1-6 credits

**BMGT 295, BMGT 395, BMGT 495**
Selected Topics in Business Management I, II, III 1-6 credits

**BMGT 296, BMGT 396, BMGT 496**
Independent Study in Business Management I, II, III 1-6 credits

Special Request Independent Study Fee: $65 per credit.

**BUSINESS**

**BUS 301 Computer Concepts and Applications in Business** 3 credits

Designed to provide students with the necessary background and skills to understand and use microcomputers. Topics include the operating system, spreadsheets, databases and word processing, and the uses and applications of computers in business.

**BUS 303 Accounting for Managers I** 3 credits

The basic principles and procedures for gathering, recording, summarizing and interpreting accounting data; analysis of financial statements. Prerequisite: Junior or Senior Standing.

**BUS 304 Practical Legal Applications in Business** 3 credits

The sources, nature and substantive principles of American law which affect social and business institutions in our society, moral and ethical dimensions, judicial process, limitations of the power of the judicial system, analysis of court decisions, comparison with other legal systems, and impact of government regulations. Prerequisite: Junior or Senior Standing.

**BUS 306 Professional Communication Practices** 3 credits

Students will strengthen the effectiveness of their business writing and presentation skills through individual and team exercises. Numerous writing assignments and a development of a portfolio of their work will provide students with a professional reference packet for use in their chosen career. Various methods of evaluation will be utilized, including feedback from peers. Prerequisite: Junior or Senior Standing.

**BUS 307 Professional Quantitative Practices** 3 credits

To prepare the students with quantitative skills needed in business to solve problems, measure production and performance, when necessary. The course will also expose the student to basic concepts in business statistics such as data sets, probability, random variables and statistical inference. These concepts will be applied in other Saturday Fast program requirements. Prerequisite: Junior or Senior Standing.

**BUS 308 Quantitative Methods** 3 credits

A study of descriptive and inductive statistics as applied to decision theory. A number of forecasting models are presented along with inventory and linear optimization models. Prerequisite: BUS 307 or MATH 150 or Permission from Advisor.

**BUS 310 Fundamentals of Personnel Management and Regulations in the Workplace** 3 credits

Selection procedures, training techniques, wage and salary administration, fringe benefits, grievance procedures and disci-
plinary action; Develops an understanding of the practical application of workplace regulations on day-to-day human resources operations and ways to minimize a company’s exposure to lawsuits; in addition topics such as diversity will be discussed.

BUS 313  Global Business 3 credits
Introduction to the dynamics of conducting business outside the United States. Explores multinational corporation strategies, policies, and various types of environments. Prerequisite: Junior or Senior Standing.

BUS 315  Essentials of Organizational Leadership and Behavior 3 credits
Examines the role of the leader as change agent within an organization. Develop an understanding of motivation, leadership, group behavior, organizational structure and processes as they relate to performance and satisfaction in work organizations. Students will work on developing skills in consensus building, conflict management, overcoming resistance to change.

BUS 401  History Perspectives and Readings 3 credits
This course will explore historical events and individuals who shaped leadership, organizational and commerce practices of a variety of organizational types. A special focus is placed on the role of history’s transferrable lessons to modern organizations. Prerequisite: Junior or Senior Standing or permission of advisor.

BUS 405  Accounting for Managers II 3 credits
Use of accounting information for management planning and control and the interpretation of accounting data as a management tool. Prerequisite: BUS 303 or Permission from Advisor.

BUS 411  Business Information Systems 3 credits
Provides an understanding of the importance of computer-based information in the success of the business. Emphasis is on the role of information systems within each of the functional areas of business. Major concepts include data management, decision support and management information systems. Prerequisite: BUS 301 or Permission from Advisor.

BUS 412  Modern Economic Concepts 3 credits
A survey of economic principles, institutions and problems. The course will provide a review of basic economic understanding while providing some historical and institutional perspective on the United States and world economy. Prerequisite: Junior or Senior Standing.

BUS 413  Modern Marketing Concepts 3 credits
An introduction to the language and issues of marketing with an emphasis on learning to develop responsive strategies for reaching consumers to meet business needs. May include such topics as market segmentation, product development, promotion, distribution, and pricing. Introduction to such topics as the external environment, marketing research, international marketing, ethics, and careers in marketing may be included. Prerequisite: Junior or Senior Standing.

BUS 414  Computer Communications and Research 3 credits
A review of the importance of computer communications including a discussion of the various on-line databases and the Internet. Emphasis on research and the written skills needed to effectively implement these technologies. Prerequisite: BUS 301 and BUS 306 or Permission from Advisor.

BUS 417  Dynamics of Business and Strategic Planning 3 credits
A presentation of the concepts and procedures of strategic planning. Discussion relates strategic planning to the analysis of the external environment and an assessment of the internal strengths and weaknesses of the organization. Prerequisite: Senior Standing or Permission from Advisor.

BUS 418  Business Finance 3 credits
The problems associated with the effective management of capital. Includes the development of corporations, the legal aspects, the securities market, and financial planning and development. Prerequisite: BUS 405 or Permission from Advisor.

BUS 455  Practicum 3 credits
Each practicum will be individually designed for the student in an area of business, accounting or computer science. When possible, the practicum will be related to present or former work experience. The student will be required to submit a written report to a Business faculty member or a designated committee of the Business School. Prerequisite: Junior or Senior Standing.
BUS 480 Portfolio Analysis/Senior Project Capstone 3 credits

The capstone course requires students to collect evidence of learning outcomes throughout the two-year program. Students will be required to gather, organize, and reflect on the portfolio. Additionally, students will complete a workplace practicum. Students will present their portfolio using technology and audio-visual equipment to a professional audience. Prerequisites: BUS 417 and Senior Standing (Final Quarter); Limited to Business Majors.

COMPUTER SCIENCE/INFORMATION TECHNOLOGY

NOTE: Due to the dynamic nature of Information Technology, there is a constant need to update the courses in this field. Please review the actual program guides for the most recent course requirements. These program guides are available in the office of the School of Business.

CMPS 114 Problem Solving with Information Technology 3 credits

A course on how Information Technology impacts organizations and how to use Information Technology to solve problems. Topics include: main concepts of Information Technology at a general level, online collaboration tools, application software, and information literacy as applied to searching and using the Internet. In addition, students will become proficient at an intermediate level in using application software. The student will learn each of the four software applications (Spreadsheets, Database, Word Processing and Presentation) and be able to apply them successfully to problem solving scenarios.

CMPS 160 Databases 3 credits

This Database course surveys topics in database systems. The course emphasizes the effective use of database (management) systems. Topics include access methods, data models, query languages, database design, query optimization, concurrency control, recovery, security, integrity, client-server architecture, and distributed database systems. Hands-on use will be a key part of the course.

CMPS 161 Networking and Security 3 credits

This course introduces basic networking and security concepts. It serves as a precursor to the more advanced and specialized networking and security courses. Coverage of topics focuses on identifying and understanding the nomenclature of hardware and software use in modern networks.

CMPS 162 Introduction to Programming 3 credits

This course introduces basic programming concepts. Hands on programming will be a key part of the course. The course is designed to teach and reinforce basic programming techniques and strategies. Prerequisites: CMPS 160.

CMPS 163 Business Analytics 3 credits

This course will provide you with concepts and tools to utilize data for making informed business decisions. We will start with the raw data and work our way to conclusions and examine all the intermediate steps in detail. Topics as data collection, model selection, built-in assumptions, and uncertainty will be at the core of the course. You will familiarize yourself with tools to apply these concepts in practice.

CMPS 204 C Programming for Science and Technology 3 credits

An introduction to standard programming structures (sequence, decision, loops, functions), common programming tasks (input-output, control, sequencing, counting, summing, searching, sorting), and data storage techniques (linked lists, arrays, and files). Applications to engineering technology problems. Prerequisites: NSET 101, CMPS 110 or CMPS 111.

CMPS 214 MicroComputing I 3 credits

An introduction to spreadsheet, database management and communication software. A thorough understanding is achieved through laboratory assignments.

CMPS 216 MicroComputing II 3 credits

Advanced topics in word processing, spreadsheet, database, and presentation management software. A thorough understanding is achieved through laboratory assignments. Prerequisite: CMPS 214.

CMPS 260 Data Structures 3 credits

In this course fundamental data structures will be explored that are indispensable when programming. Some major
areas are objects, lists, arrays, stacks, queues, and more. Tradeoffs in terms of computational complexity and operations on these data structures are also discussed. Prerequisites: CMPS 162.

**CMPS 261 Server Management**
3 credits
In this course, students will learn how to administer a server. This ranges from installing an operating system, remotely installing software packages through a package manager, configuring the system, managing security and encryption, backups, to shell scripting. A big component of this course is lab work. Prerequisites: CMPS 162.

**CMPS 262 Advanced Programming**
3 credits
This course continues where CMPS 162 and CMPS 260 leave off. The focus will be on problem solving but with a much higher difficulty level. The students will be required to write programs that involve multiple units of organization, e.g., classes. Several advanced algorithms will be discussed and should be implemented by the students. Prerequisites: CMPS 260.

**CMPS 300 Information Technology for Managers**
3 credits
The course focuses on the computerized and Web-based systems used in business. Topics covered will include knowledge management, customer relationship management, enterprise resource management, and supply chain management.

**CMPS 330 Electronic Commerce I**
3 credits
This course provides information and analysis of ecommerce. Course topics include – ecommerce business models, ecommerce infrastructure, implementing an ecommerce website, ecommerce security and payment systems, ecommerce marketing concepts, ethical, social and political ecommerce issues, social networks, and how highly portable, place-aware, always-with-you personal devices are expanding the ecommerce environment.

**CMPS 355, CMPS 356 Internship in Computer Science I, II**
3 credits
Part-time job experience approved by the department in a local business or industrial firm. Method of evaluation is agreed upon by the departmental and job-site supervisors. May include periodic reports, a day-by-day journal, computer programs with documentation, user’s manuals and/or demonstrations. Prerequisites: Junior Standing and permission.

**CMPS 360 Survey of Programming Languages**
3 credits
This course provides students with a wide array of programming languages and emphasizes strengths and weaknesses relative to a given problem. Students will work on a practical problem in a language of choice to gain real world experience. Prerequisites: CMPS 261, CMPS 262.

**CMPS 361 Web Application Development**
3 credits
This course will provide a foundation in several facets of establishing and maintaining a website. This includes the latest advances in client side as well as server side technologies. The goal is to have students design, implement, and run advanced web applications. It will also cover in some detail the protocols required for web development. Prerequisites: CMPS 261, CMPS 262.

**CMPS 362 Networking**
3 credits
Techniques for the design of computer networks beyond the user level are discussed. Perspectives on network design, estimation of traffic demand and application requirements, network cost analysis, topological design, and virtual network design issues are also discussed. Prerequisites: CMPS 161.

**CMPS 363 Digital Security**
3 credits
This class will provide an overview of computer security. The concepts of security in the context of the digital world will be discussed. The nuts and bolts of threat prevention, detection and removal are discussed. The student will be required to use a lab environment to simulate troubleshooting, preventing and fixing problems. Prerequisites: CMPS 161.

**CMPS 364 NoSQL Databases**
3 credits
This course explores modern databases that do not strictly follow the relational database design and SQL. Advantages and disadvantages will be discussed. Students will be required to work with at least one NoSQL databases and write a program that utilizes it. Prerequisites: CMPS 163, CMPS 261.

**CMPS 430 Electronic Commerce II**
3 credits
A continuation of Electronic Commerce I and may include some of the topics in Electronic Commerce I or an in-depth review of these topics. Prerequisite: CMPS 330.
CMPS 460  Mobile Application Development  3 credits
In this course, students will learn how to develop applications for mobile devices. Mobile devices are more restricted in screen space but also have new opportunities such as built in GPS. This course requires completing a group project for a given mobile platform. Prerequisites: CMPS 361.

CMPS 461  Big Data Applications  3 credits
This course continues where CMPS 364 leaves off and focuses on architectures and implementations that are able to handle large data sets. For this course several tools will be applied to real data sets. Prerequisites: CMPS 364.

CMPS 462  Data Mining  3 credits
A follow up course on CMPS 163 that is much more technical. In addition to a mathematical understanding of algorithms this course also lets students implement their own algorithms. Prerequisites: CMPS 163, CMPS 261, and CMPS 262.

CMPS 463  Entrepreneurship for Software Developers  3 credits
Course in which students will learn how to commercialize their ideas and software into a profitable business. The focus is on customer development, i.e., acquiring customers, and uses the lean business model canvas. The essential element of this course is to create a prototype and investigate whether a customer base can be identified. Prerequisites: CMPS 163 and CMPS 361.

CMPS 464  Software Development for E-Commerce  3 credits
The course will give students a clear understanding of the field of electronic commerce. Included will be the fundamental business processes/plans that are necessary to understand before conducting electronic commerce. The student will learn principles underlying the construction of data driven systems, particularly relational ones, and apply these principles to an actual semester long group project. The project is a good sized one, and provides an opportunity for the application of software engineering principles. Prerequisites: CMPS 163 and CMPS 361.

CMPS 480  Senior Project  4 credits
In this course the student will demonstrate their mastery of material undertaken in coursework by selecting and creating a programming solution to a significant business application. The group will work together to construct their solution and present a working model of their problem to the class. This project is designed to give the student a hands-on demonstration of their coursework suitable for a portfolio of accomplishments. Prerequisites: All I.T. Core Classes.

CMPS 194, CMPS 294
Selected Topics (CORE) 1-6 credits

CMPS 295, CMPS 395, CMPS 495
Selected Topics in Computer Science I, II, III 1-6 credits

CMPS 296, CMPS 396, CMPS 496
Independent Study in Computer Science I, II, III 1-6 credits

ECONOMICS

ECON 201  Principles of Economics/Macroeconomics  3 credits
An introductory analysis of economic theory as applied to fiscal and monetary policy affairs.

ECON 202  Principles of Economics/Microeconomics  3 credits
An introduction to the pricing and allocation mechanism of the classical market economy.

ECON 203  Economic History of the United States  3 credits
A study of the evolutionary development of the United States from the colonial subsistence level to the present day.

ECON 205  Survey of Economic Thought  3 credits
This course will introduce students to the ideas of major figures from antiquity to the present times and explore the
reasons such ideas revolutionized the field of economics. Moreover, the major schools of economic setting will be examined. Prerequisites: ECON 201, ECON 202.

ECON 306 Economics of Money and Banking 3 credits
The functioning of our monetary and banking system and the possible effects of monetary policy on the economy. Examines the ways domestic monetary policies affect global financial markets and international monetary arrangements. Prerequisite: ECON 201 or ECON 202.

ECON 310 Intermediate Price Theory 3 credits
An insight into the determination of prices and quantities under various types of market conditions. Prerequisite: ECON 202.

ECON 312 Management Science 3 credits
The basic operations of research technology used in managerial and statistical decision-making: mathematical programming, inventory models and queuing theory. Dual listed as BMGT 310. Prerequisites: MATH 175, MATH 180; BMGT 208.

ECON 315 Comparative Economic Systems 3 credits
This class provides a comparative and contrasting perspective of different economic systems. It explores the way economies function under the umbrella of different philosophies, institutions and processes. Prerequisites: ECON 201, ECON 202.

ECON 417 Economic Growth and Development 3 credits
An analysis of theories of economic growth and development will be presented here. An attempt will be made to explore the dynamics of various countries at different stages of development so as to determine effective and efficient ways that may contribute to more advanced rates of growth especially for the lesser developed and developing countries. Prerequisites: ECON 201, ECON 202, ECON 310.

ECON 418 Modern Economic Thought 3 credits
This is a more advanced, more thorough and more analytical approach to the ECON 205-Survey of Economic Thought class. The fundamental ideas of the major schools of economic thought will be examined so as to determine their impacts on economic policies, Austrian, Marxist, Keynesian, Neo-Classical and Institutional perspectives will be analyzed systematically. Policy discussions and applications of these economic ideas will be pursued in the current economic environment. Prerequisites: ECON 201, 202, 205.

ECON 419 Economics of Social Issues 3 credits
The course explores social issues such as poverty, government controls, crime, pollution, education, market imperfections and their impact on the economy. A policy approach will be used to see how the impacts of problems can be minimized or solved so as to enhance social and individual wellbeing. Prerequisites: ECON 201, ECON 202.

ECON 421 International Economics 3 credits
A study of international trade covering topics such as absolute and comparative costs, factor movements, balance of payments, barriers of trade, the impact of exchange rate fluctuations on trade and multinational corporate issues. Prerequisite: ECON 201 or ECON 202.

ECON 431 International Finance 3 credits
This class examines aspects of the international financial arena. It explores systematically the ways corporations function in the international financial setting. It examines the role international financial institutions and the significance of exchange rate fluctuations in corporate behavior and performance. Prerequisites: ECON 201, ECON 202.

ECON 461 Risk Management 3 credits
Risk management will enable organizations to identify strategies so as to deal effectively with risky possibilities that can impact detrimentally the organization. Risk management techniques and strategies will be discussed to preserve an organization’s value. Such strategies may include, hedging, insurance, contingent financing and changes in organizational design that will enable an organization to overcome shocks of both a domestic and global nature. Prerequisites: ECON 201, ECON 202, ECON 310.

ECON 194, ECON 294 Selected Topics (CORE) 1-6 credits
ECON 295, ECON 395, ECON 495  Special Topics in Economics I, II, III  1-6 credits

ECON 296, ECON 396, ECON 496  Independent Study in Economics I, II, III  1-6 credits
  Special topics in economics have included: Forensic Economics, Economics of Investment, Economics and the Law, Current Economic Issues, Practical Economics in the Workplace. Special Request Independent Study Fee: $65 per credit.

FINANCE

FIN 300  Corporate Finance  3 credits
  The problems associated with the effective management of capital. Includes the development of corporations, the legal aspects, the securities market, the financial planning and development. Prerequisites: ACCT 210, MATH 175

FIN 306  Economics of Money & Banking  3 credits
  The functioning of our monetary and banking system and the possible effects of monetary policy on the economy. Examines the ways domestic monetary policies affect global financial markets and international monetary arrangements.

FIN 426  Investment Management  3 credits
  An analysis of securities and principles governing the management of investment assets from the perspective of issuers, investors, and the financial markets. Topics include: investment securities (types, structure, valuation), capital markets (primary, secondary), measurement of investment risk and return, modern portfolio theory, asset allocation, and financial engineering.

FIN 431  International Finance  3 credits
  This class examines aspects of the international financial arena. It explores systematically the way corporations function in the international financial setting. It examines the role international financial institutions and the significance of exchange rate fluctuations in corporate behavior and performance. Prerequisites: ECON 201, 202, FIN 300.

FIN 461  Risk Management  3 credits
  Risk management will enable organizations to identify strategies so as to deal effectively with risky possibilities that can impact detrimentally the organization. Management techniques and strategies covering credit, market, operational, and reputational risks will be discussed to preserve an organization's value. Such strategies may include hedging, insurance, contingent financing, and changes in organizational design that will enable an organization to overcome shocks of both a domestic and global nature. Prerequisites: ECON 201, 202, FIN 300.

FIN 295, FIN 395, FIN 495  Special Topics in Finance I, II, and II  1-6 credits

FIN 296, FIN 396, FIN 496  Independent Study in Finance I, II, and II  1-6 credits
  Special Request, Independent Study Fee: $65 per credit

LEADERSHIP

LEAD 110  Introduction to the Study of Leadership  3 credits
  Lays the foundation for an academic study of leadership as a process in organizations. Key terms, concepts and theories are presented and examined to serve as tools for subsequent analysis and application. Considerable attention is given to the historical evolution of leadership as a focus of study as well as individual, situational, transactional and transformational approaches.

LEAD 140  Leadership Skills  3 credits
  Provides students with feedback on their own leadership style through leadership instruments, exercises and feedback. Course will include measurement and skill development in personality, critical thinking, decision-making, communication, conflict-management, contingency leadership (LPC), and other key areas.

LEAD 210  The Face of Leadership  3 credits
  This is a highly interactive course that allows the student to explore the phenomenon of leadership through film, theater, and literature (novel, poetry, epic, history, and biography). Students will view selected works through the lens of current models of organizational leadership in order to make statements, evaluations, and prescriptions for their own practical application of leadership. Students may be asked to spend time out of the classroom viewing films or attending productions at the Pittsburgh Playhouse. Prerequisite: LEAD 110.
LEAD 215  Introduction to Interpersonal Communications for Leaders  3 credits
This course introduces communication theory, models and application. Students will explore and identify personal style, assess impact and opportunities for communicating across perceived barriers.

LEAD 305  Organizational Communications for Leaders  3 credits
This course offers leadership students the opportunity to examine how leaders in organizations share information with members of the internal community and with those outside of the organization. Communication styles as they relate to leadership roles within the organization are discussed as well as using communication to facilitate change with an organization. Topics will include effective personal communication skills, audience analysis, written and electronic communication and the development of successful listening skills.

LEAD 312  Leadership: Confluence of Emotional and Cultural Acumen  3 credits
Students will explore the concepts of emotional intelligence and cultural intelligence and consider their level of EI/CI as they complete instruments, exercises and gain insight on the various styles of leadership that do not sacrifice the essential connections that binds a network or system of people. This course will facilitate students in understanding, recognizing, and honing these skills as well as the application of EI/CI to advancing organizational change.

LEAD 315  Leading Organizational Change  3 credits
Examines the role of the leader as change agent within an organization. Students will develop mastery in visioning, the action-research process, strategic leadership, consensus building, conflict management, overcoming resistance to change, performance evaluation, and selected organization development interventions.

LEAD 317  Understanding Gender and Power: Gender, Dynamics in Leadership  3 credits
This course explores four frames of gender: (1) fix women, (2) celebrate differences, (3) create equal opportunities, and (4) revise the work culture. Leadership majors will explore the nuances of gender in the workplace; looking not only at women’s issues - gender will be viewed as a central organizational element and the implications for women, men and how the meaning of work is being redefined. Students will examine how power is used and the dis-interpreted in the context of women: women as well as men: men, and women: men; on how career-goals and strategies are developed, and how the changing roles of women and men are impacting the essence of work, health benefits and more.

LEAD 405  Leadership Skills for Emerging Leaders  3 credits
Provides students with feedback on their own leadership style through leadership instruments, assessments and exercises. Course will include measurement and skill development in personality, critical thinking, decision-making, vertical and horizontal communication strategies, leader communication styles within the context of leadership and organizational models, conflict-management, with attention to critical aspects of growth, change, adult development, underlying abilities, and competencies needed to lead effectively in diverse organizations.

LEAD 410  Ethical Leadership: Challenges Facing 21st Century Leaders  3 credits
This source incorporates organizational studies and ethical leadership challenges; includes exploration of leadership challenges within multinational organizations. Students will examine the codes of ethics found in various organizational environments, consider the complexity of multinational organizations and cultural expectations, and the impact of moral values on decisions in the organization with emphasis on the ethical dilemmas that leaders and followers face-including political, legal, social, and environmental issues.

LEAD 415  Systems Thinking for Emerging Leaders  3 credits
Demonstrates the interdependency of the human-eco system, the necessity for leaders to understand complexities, and the need to discern and convey simplicities. This introduction to systems thinking requires a holistic frame of reference that will facilitate leadership students' peel away at the layers of perceptions, anchors, and self-inflicted barriers.

LEAD 417  Problem-solving and Strategic Planning Techniques for Leaders  3 credits
Analyzes the role and responsibilities of leaders in the development of organizational strategic initiatives. Leadership students have an opportunity to learn how decision and choice theory are applied to problem identification and problem solving, assessing both individual and organizational needs, the alignment of human and capital resources, organizational climate, and the identification of key actors and stakeholders within an organization to develop and implement strategic initiatives.

LEAD 445  Career Development and Succession Strategies for Leaders  3 credits
In this course, students will analyze the role and responsibility of leaders in creating talent-driven cultures and research
organizations that employ strategic, systematic strategies designed to develop leadership competencies. Based on research, assessments and feedback, students will present their leader-portfolio and talent-driven model.

**LEAD 460 Leading in the Metanational Environment**
3 credits

Metanational organizations view the world as a global canvas with pockets of technology, market intelligence, and dynamic capabilities. Leaders of these organizations see untapped potential and innovate more effectively. Leadership students will examine the strengths of this acumen; learn what it means to prospect and attract new pockets of dispersed knowledge, leverage innovation, and optimize integrated networks. Leadership students will learn about the inter-relationships of various organizations, agencies and international networks.

**LEAD 194, LEAD 294 Selected Topics (CORE)**
1-6 credits

**LEAD 395, 495 Special Topics in Leadership**
3 credits

**MARKETING**

**MKTS 205 Principles of Marketing**
3 credits

This foundational marketing course introduces students to the principles and practices of marketing, including core marketing concepts, the marketing mix, the marketing environment, business and consumer markets, marketing research, marketing technology, and marketing planning. Students will explore marketing careers and gain an understanding of the dynamic role of marketing in an organization and in society.

**MKTS 206 Professional Selling**
3 credits

This foundational selling course takes a holistic approach to selling and the sales process, emphasizing sales strategies and techniques from a need-satisfaction perspective. Topics will include sales careers, the role of sales in an organization, communication and influence skills, ethics and social responsibility, and the selling process. Students will have an opportunity to apply the selling process, including pre-call research, prospecting, uncovering needs and buying motives, presenting sales messages, negotiating, and gaining commitment through exercises and role-plays. Prerequisite: MKTS 205

**MKTS 210 Digital Marketing**
3 credits

The internet and related technology skills are required by most business today – particularly in the realm of marketing. You’ll learn the basic language of the online marketing ecosystem including advertising, search engine optimization/management, analytics, content development/deployment and social media. This is a hybrid course, combining online learning with in-person implementation of learning with real clients during our class time. Dual Listed with SAEM 210. Prerequisites: SAEM 202 or BMGT 205.

**MKTS 280 Marketing Career Prep**
1 credit

This class will prepare students for entry into the professional world of marketing and sales by developing foundational skills in interviewing and marketing themselves utilizing resumes, cover letters, social media, and e-portfolios. Prerequisites: Marketing & Sales Major, MKTS 205.

**MKTS 304 International Marketing**
3 credits

An introduction to the tools and techniques for successful competition in the international marketplace. Clarification of such issues as marketing objectives; environmental and competitors’ analyses; and product, pricing and promotion strategies applicable to a variety of national settings. Prerequisite: BMGT 205, BMGT 303.

**MKTS 305 Buyer Behavior**
3 credits

Understanding decision processes and the buying behavior of consumers and organizations guides development of marketing and sales initiatives. In this course, concepts, theories, and frameworks will be introduced to understand buyer behavior and its implications for marketing and sales decision-making. Prerequisite: MKTS 205

**MKTS 306 Advanced Selling**
3 credits

Building on the foundational class, this course will focus on advanced instruction in selling techniques with an emphasis on needs analysis, buying motives, influence, and creative problem-solving, preparing students for success in entry-level professional selling positions. It will provide an opportunity for students to apply selling skills through extensive role-playing and practical application. Prerequisites: MKTS 205, MKTS 206.
MKTS 310 Personal Branding & Business Development  
Marketing and selling oneself is important in many aspects of personal and professional development, particularly in the fields of marketing and sales. In this course, students will build their own professional personal brand and conduct business with appropriate and expected etiquette. Marketing and sales concepts and theories, including the marketing mix and sales process, will be used for personal brand development and business development. Prerequisites: MKTS Major, MKTS 205, MKTS 206.

MKTS 311 Marketing Research and Analytics  
This course emphasizes the role of systematic information gathering and analysis for marketing decision-making with an emphasis on the analysis and interpretation of primary and secondary data. Principles of marketing analytics will be covered, with a focus on translating data into meaningful business insights and strategy. Data privacy and ethics will also be considered. Case studies and/or client-based projects will be utilized. Prerequisites: MKTS 205

MKTS 320 Creativity and Product Innovation  
Innovation is essential to the long-term success and even survival of most organizations. Effective, ethical marketing offerings solve problems and satisfy needs, and ongoing product development efforts require creativity and innovation. This course introduces and explores innovation as a management process, investigating the role of creativity in innovation, value creation through innovation and product development, and the product development process. Prerequisite: MKTS 205

MKTS 355 Internship I  
Internships provide students with hands-on experience in marketing/sales. Students gain practical experience, enhance skills learned in the classroom, and acquire professional contacts. Qualifying internships include on-site professional marketing and/or sales experiences in commercial, institutional, governmental, or not-for-profit organizations. Specific requirements and methods of evaluation will be determined by the supervising faculty and the internship site supervisor at the cooperating site. Reporting requirements may include daily journal entries or weekly/biweekly updates, and a portfolio or final report, along with internship site supervisor evaluations. A three credit internship is equivalent to a minimum 150 hours of work over the course of a semester. To receive credit, students must register for an internship course period to the start date of their internship. Prerequisites: MKTS 205, 206

MKTS 356 Internship II  
Internships provide students with hands-on experience in marketing/sales. Students gain practical experience, enhance skills learned in the classroom, and acquire professional contacts. Qualifying internships include on-site professional marketing and/or sales experiences in commercial, institutional, governmental, or not-for-profit organizations. Specific requirements and methods of evaluation will be determined by the supervising faculty and the internship site supervisor at the cooperating site. Reporting requirements may include daily journal entries or weekly/biweekly updates, and a portfolio or final report, along with internship site supervisor evaluations. A three credit internship is equivalent to a minimum 150 hours of work over the course of a semester. To receive credit, students must register for an internship course period to the start date of their internship. Prerequisites: MKTS 205, 206, 355

MKTS 395 Special Topics in Marketing and Sales  

MKTS 406 Sales Management  
Effective sales management is integral to an organization’s success. This course provides a framework for the integration of sales within the organization’s overall marketing effort. Emphasis will be placed on designing, organizing, developing, and directing a sales force ethically and responsibly, with a focus on problem-solving and critical thinking. Prerequisites: MKTS 205, MKTS 206.

MKTS 410 Technology/Innovation in Mktg. & Sales  
In marketing and sales, both strategy and implementation are significantly impacted by technology and digital tools, and this course will explore new and existing technologies to better prepare students to enter these dynamic fields. Prerequisites: KTS 205, MKTS 206.

MKTS 411 Advanced Marketing Management  
Planning and coordinating a dynamic and aggressive marketing campaign and synthesizing the tools of marketing. Prerequisite: BMGT 205 and Senior Standing
PUBLIC ADMINISTRATION

PADM 105 Applied Public Administration Workshops 1-6 credits
To increase professional competency in field situations, intensive weekend workshops are offered primarily on a non-degree, no-credit basis. However, they can be applied as advanced standing credit to the Public Administration degree program.

PADM 205 Urban Politics 3 credits
This course identifies and explores the political, governmental and community conceptualizations of problems and solutions in an urban environment. The course will focus on the interaction between elected officials, community groups and government leaders. Pre-requisite: POLS 202.

PADM 206 Non-Profit Organizations 3 credits
This course is an introduction to leadership in nonprofit organizations (NPO). Topics include the theoretical, historical and legal foundations of NPOs, governance, fundraising, accountability, personnel and ethics.

PADM 210 Public Administration 3 credits
This course is an intensive study of governmental and non-profit organizations, including organizational structures and functions, including planning, budget, finance, management and leadership. The course emphasizes the interaction and interrelationship of agencies and administrators at all levels of government and the non-profit sector. Dual listed as POLS 204.

PADM 211 Principles of Management 3 credits
Emphasis on the major theories and functions of management. Students develop an understanding of why management is needed in all organizations and what constitutes good management. Dual listed as BMGT 208. Pre-requisite: BMGT 101 or PADM 210.

PADM 214 Public Budgeting and Finance 3 credits
This course addresses the principles of governmental and non-profit organizations’ revenue, expenditure and budgeting. A special focus is placed on the planning and management aspects of budgeting, and the associated measurements and evaluation. Pre-requisite: PADM 210 or PADM 206 or permission.

PADM 301 Operational Methods for Public Management 3 credits
This course applies quantitative analysis and forecasting methods to plan and evaluate decisions in public agencies. Additional topics include basic research design and techniques, and reading and interpreting research findings. Pre-requisites: PADM 210 and MATH 150; ECON 201 or 202 or permission of the instructor.

PADM 302 - Leading Organizational Change 3 credits
Examines the role of the leader as change agent within an organization. Students will develop knowledge and skills in strategic leadership, consensus building, conflict management, overcoming resistance to change, performance evaluation, and selected organization development interventions. Dual listed as LEAD 315.

PADM 303 Policy and Decision Analysis 3 credits
This course will cover quantitative, qualitative and mixed-methods approaches to defining, structuring, analyzing and evaluating policies and decisions in government and non-profit agencies. Pre-requisites: PADM 210 and MATH 150 (or greater) or permission of the instructor.

PADM 304 Theories of Public Organization 3 credits
Organizational structure affects the function and performance of public agencies. Topics in this course include the elements, concepts and principles of organizational theories and leadership development in government and non-profit agencies. Pre-requisite: PADM 210 or BMGT 208 or permission.

PADM 311 Special Employee Relations in Public Agencies 3 credits
This course includes the legal and managerial considerations regarding human resources and employee relations in government and non-profit agencies. Special emphasis will be on civil service employees and those represented by collective bargaining units, including negotiation and dispute resolution processes. Additional topics include special personnel relationships, such as contract and temporary employees, and volunteers in public service. Pre-requisite: PADM 210 or PADM 206 or BMGT 207 or BMGT 208 or permission.
PADM 312 Introduction to Administrative Law 3 credits
This course provides a foundation in constitutional, statutory, common and agency-made law as it applies to the powers, procedures and judicial review of public agencies. Prerequisite: PADM 210 or BMGT 201 or POLS 209.

PADM 314 Public Budgeting and Finance II 3 credits
This course is a continuation of PADM 214 and focuses on gathering and analyzing data to build and present line item and program budgets, narratives and presentations. This course will include the use of computer spreadsheet applications (such as MS Excel). Prerequisite: PADM 214 or permission of instructor.

PADM 317 Legal Aspects of Nonprofit Organizations 3 credits
This course presents an overview of the legal and ethical issues confronting non-profit organizations. Prerequisites: PADM 206 or PADM 210 or permission.

PADM 320 Emergency and Disaster Preparedness 3 credits
Emergencies and disasters affect the business, non-profit and governmental sectors, as well as residents, customers and employees. This course will introduce the student to the types of disasters faced by the community and the preparedness measures necessary for organizational continuity of operations and business recovery. Dual listed as BMGT 222.

PADM 322 - Disaster Planning and Control 3 credits
This course examines the concepts and principles of community risk assessment and response to and recovery from natural and man-made disasters. The focus of the course will be on the legal and organizational frameworks, roles and responsibilities of public, non-profit and private agencies in preparedness and response. Prerequisite: PADM 210; PADM 222 or permission.

PADM 330 Fire and Emergency Services Administration 3 credits
This course is designed to be a progressive primer for students who want more knowledge about fire and emergency services administration. The course demonstrates the importance of the following skills, necessary to manage and lead a fire and emergency services department through the challenges and changes of the 21st century. Prerequisite: Junior Standing or prior Fire/EMS experience.

PADM 331 Political and Legal Foundations of Fire Protection 3 credits
This course examines the legal aspects of the fire service and the political and social impacts of legal issues. This course includes a review of the American legal system and in-depth coverage of legal and political issues involving employment and personnel matters, administrative and operational matters, planning and code enforcement, and legislative and political processes with regard to the fire service. Prerequisite: Junior status or prior Fire/EMS experience.

PADM 332 Fire Prevention Organization and Management 3 credits
This course examines the factors that shape fire risk and the tools for fire prevention, including risk reduction education, codes and standards, inspection and plans review, fire investigation, research, master planning, various types of influences, and strategies. Prerequisite: Junior Standing or prior Fire/EMS experience.

PADM 333 Personnel Management for Fire and Emergency Services 3 credits
The course examines relationships and issues in personnel administration and human resource development within the context of fire-related organizations, including personnel management, organizational development, productivity, recruitment and selection, performance management systems, discipline and collective bargaining. Prerequisite: Junior Standing or prior Fire/EMS experience.

PADM 336 Community Planning and Risk Reduction 3 credits
This course provides a theoretical framework for understanding the ethical, sociological, organizational, political and legal components of community planning and risk reduction. Topics include comprehensive planning, zoning, building, fire and life safety codes. Prerequisite: PADM 210 or permission.

PADM 340 Foundations of Emergency Medical Services 3 credits
An overview of the design and operation of emergency medical services (EMS) systems, delivery of services, and the echelons of care. The history of EMS, the interface of public and private organizations and review of the various personnel who comprise these systems will be examined in relation to their impact on the health care delivery system. Prerequisite: Junior Standing or prior Fire/EMS experience.
PADM 341  EMS Management  
This course provides the emergency medical services (EMS) leader with the knowledge, skills and abilities necessary for high performance services. Topics include interagency relations, strategic planning, personnel development, fleet management, data collection, communications and incident management for private, government and volunteer-based services. Prerequisites: Junior Standing or prior Fire/EMS experience.

PADM 342  EMS Community Risk Reduction  
This course explores the health and injury risks faced by our communities, the demands they place on the emergency medical service (EMS) system, and public education and prevention strategies to reduce their impact. Topics include determining and understanding community demographics, morbidity and mortality studies, emergency care resources and effective communication of risk and prevention. Prerequisite: Junior Standing or prior Fire/EMS experience.

PADM 345  EMS Safety and Risk Management  
This course introduces the student to the risk management principles of an EMS agency. The emphasis is on safety from the perspective of the field provider. Prerequisite: Junior Standing or prior Fire/EMS experience.

PADM 346  Legal, Political, and Regulatory Issues in EMS  
This course examines the legal aspects of emergency medical services (EMS) and the political and social impacts of legal issues. This course includes a review of the American legal system and in-depth coverage of legal and political issues involving operations, personnel, healthcare regulations, reimbursement and insurance. Prerequisite: Junior Standing or prior Fire/EMS experience.

PADM 381  History Perspective & Reading  
This course will explore historical events and individuals who shaped leadership, organizational and commerce practices of a variety of organizational types. A special focus is placed on the role of history's transferrable lessons to modern organizations.

PADM 405  Leading Nonprofit Organizations  
Examines approaches to leading non-profit organizations. In this course, students will explore the key tenets of mission-focused leadership, how non-profit organizations build capacity, organize volunteers, create strategic alliances, develop fundraising strategies, and optimize community as well as board member relationships. Prerequisite: PADM 214, PADM 317 and SAEM 440.

PADM 410  Advanced Seminar in Applied Public Management  
Designed to capstone other course in the PADM major, this course presents advanced applications of the principles of public administration. Prerequisites: Junior Standing and five courses in Public Administration.

PADM 411  Public Administration Internship  
A field experience in areas directly related to public sector employment. Evaluated on a satisfactory/unsatisfactory basis, proficiency requirements are determined through a student contract with the supervising faculty member. Offered during the Fall and Spring terms. Prerequisites: Junior Standing and five courses in Public Administration.

PADM 430  Applications of Fire Research  
This course examines the basic principles of research and methodology for analyzing current fire-related research. The course also provides a framework for conducting and evaluating independent research in the following areas: fire dynamics, fire test standards and codes, fire safety, fire modeling, structural fire safety, life safety, firefighter health and safety, automatic detection and suppression, transportation fire hazards, risk analysis and loss control, fire service applied research and new trends in fire-related research. Prerequisite: Senior Standing and PADM 301 or PADM 303, or permission of instructor.

PADM 440  EMS Quality and Performance Management  
How do we know that emergency medical services (EMS) are meeting the standards and needs of the community? The course includes quantitative, qualitative and mixed methods research approaches, applies to quality assurance, program evaluation and customer service to validate and improve patient care and transport. Prerequisite: Senior Standing and PADM 301 or PADM 303, or permission of instructor.

PADM 194, PADM 294  Selected Topics (CORE)  
1-6 credits
SPORTS, ARTS AND ENTERTAINMENT MANAGEMENT

SAEM 101  Introduction to the SAE Business 3 credits
SAEM 101 functions as an introduction to business basics (emphasis on entrepreneurial skills) within the context of the Sports, Arts and Entertainment industry. Students will receive an opportunity for experiential learning through a SAEM live event assignment and shadowing exercise.

SAEM 152  Business of Live Entertainment 3 credits
This course will cover many facets of the Sports, Arts and Entertainment business, and students will comprehend how live entertainment is a part of all of the disciplines. Highlights include training in the fundamentals of the entertainment business, which includes marketing, promotion, advertising, finance, theatre production, venue management, artist management, artist touring, the recording industry, ticketing operations, sponsorship and more.
