# Program Objectives

## M.S. IN ENVIRONMENTAL STUDIES

### **Upon successful completion of this program, a student will:**

1. To prepare students to apply the principles of biological, physical and social science to an understanding of environmental concerns.
2. To develop an understanding of the historic perspective relating to environmental problems.
3. To prepare students to design, implement and/or evaluate environmental programs in government agencies, corporations, consulting firms and non-profit organizations.
4. To train students to be analytical, responsible and socially aware communicators to diverse constituencies concerned with environmental issues.
